History: This message has been forwarded.

Ms. Taylor these are the test results we got from Cabot. If the litigants had taken a treatment system I'm sure the results for their testing would be good too. Please stop the water truck that comes every day and make them pay for what they have gotten. If it was truly about the water they would have taken a treatment system. What right do they have to say no you can't try and fix it because we won't let you.?

These are the test results we got from Cabot. We haven't gotten any from EPA or DEP. EPA told us they were going to come out and give us test results they were a no show and never even called. Haven't returned emails either. That water tank truck that comes each and every day should stop and the people receiving the water should pay for all they've gotten.

Subject: Your data

Ex. 6 - Personal Privacy

The attached files contain lots of your data. The one called Ex. 6 - Personal Privacy "Full Data Set" is all of your data that we have in our database - it's over 300 pages! The other file called Ex. 6 - Personal Privacy "2011" is just the data from 2011 to the present - it is a little easier to deal with.

The two other files are the lab sheets from the samples we collected along with the EPA. (I think all the data is here except for the radio nuclides). One is for the untreated water (well 1-1) and the other is the treated water (well 1-2). The treated water meets all drinking water standards.

Please let me know if you have any questions. I'll be out there next week so we can meet if you like.
